(a) Title of rule: (Describe Subject) Rules relating to pesticides containing the active ingredient clopyralid, WAC 16-228-1235 through 16-228-1238.

Purpose: To restrict some uses of pesticides containing the active ingredient clopyralid. The restrictions are intended to prevent clopyralid residues in compost at levels that may be damaging to plants grown in or around compost.

Other identifying information:

(b) Statutory authority for adoption: Chapters 15.58, 17.21 & 34.05 RCW

Statute being implemented: Chapters 15.58 & 17.21 RCW

(c) Summary: Turf clippings and other plant materials including agricultural plant materials, are often recycled to composting facilities. There is evidence that finished compost that has incorporated turf clippings with clopyralid as a feedstock may contain residues harmful to sensitive plant species. The clopyralid residues on turf clippings and other plant materials are not breaking down as rapidly as anticipated during the composting process.

Reasons supporting proposal: The proposed restrictions are intended to prevent clopyralid residues in compost at levels that may be damaging to plants grown in or around compost.

Short explanation of rule, its purpose, and anticipated effects:
The proposed rule places restrictions on pesticides containing the active ingredient clopyralid when labeled for use on cereal grains, grass used for hay, lawns and turf including golf courses. The rules spell out the restrictions and requirements for the sale, distribution and use on lawns and turf including golf courses. The proposed restrictions are intended to prevent clopyralid residues in compost at levels that may be damaging to plants grown in or around compost.

Does proposal change existing rules?  ☑ Yes  ☐ NO  If yes, describe changes:

Has a small business economic impact statement been prepared under chapter 19.85 RCW?

☐ Yes. Attach copy of small business economic impact statement.
A copy of the statement may be obtained by writing to:

☐ No. Explain why no statement was prepared
The Department of Agriculture’s Pesticide Management Division conducted an economic impact survey of all Washington State licensed pesticide dealers and commercial applicators licensed to apply pesticides to turf and ornamental weeds. Based upon the results of that survey, the department has concluded that any new compliance costs imposed by the proposed new rules are not “more than minor,” therefore a small business economic impact statement (SBEIS) is not required.

Does RCW 34.05.328 apply to this rule adoption?  ☑ Yes  ☐ No
