VII. Crop-Specific Information

**Corn**

### Tank Mixes

**Laddok S-12 + Atrazine**

- **Laddok S-12:** 1.33-2.33 pints per acre
- **Atrazine:** 0.75-1.00 pound per acre
- **Oil Concentrate:** 1 pint per acre

Adding atrazine will provide residual weed control and suppress giant, green, and yellow foxtail. Atrazine products compatible with Laddok S-12 include AAtrex® 4L and AAtrex® Nine-O herbicides as well as other similar generic formulations containing atrazine.

**Table 5. Tank Mix Rates for Laddok S-12 + Atrazine**

¹ See Section VI, General Restrictions and Limitations for maximum amounts of atrazine allowable per season.

---

**SWECRT CORN:**
Consult your local agricultural extension specialist for information on sweet corn varieties that are tolerant to this tank mix.

**Laddok S-12 + Banvel**

- **Laddok S-12:** 1.33-2.33 pints per acre
- **Banvel:** up to 16 ounces (0.5 pound a.i.) per acre
- **UAN Solution:** 4 pints per acre
- **AMS:** 2.5 pounds per acre

For use on field corn only. This tank mix may be applied for additional or improved control of bindweed (field and hedge), Canada thistle, honeysuckle milkweed, common lambsquarters, morningglories, pigweed (redroot and smooth), ragweed (common and giant), waterhemp (common and tall), and wild sunflower.

**Tank Mix Specific Restrictions and Limitations**

- Do not add other additives to this tank mix.
- Follow the application procedures on the Banvel label if applying near sensitive crops.
- Do not apply this tank mix at more than 40 psi.

**Laddok S-12 + Bladex® 90 DF**

- **Laddok S-12:** 1.33-2.33 pints per acre
- **Bladex:** 1.67 pounds per acre

For use on field and silage corn only to control major troublesome broadleaf weeds and small annual grasses and to reduce the potential triazine carryover into rotational crops. Annual grasses controlled by a Laddok S-12 + Bladex 90 DF tank mix include: crabgrass, tall parnion, giant foxtail, goosegrass, green foxtail, stinkgrass (Indian lovegrass), witchgrass, and yellow foxtail. Refer to Table 1 for rate and timing for use.
